

Protection and enhancement of Mediterranean natural landscapes and their resources

Final International Conference
Villa Méditerranée – Marseille (France)
September 18th-19th 2014

Presentation of innovative tools and solutions for an efficient, sustainable and smart conservation and management of natural resources in the Mediterranean, in the frame of MEDLAND2020, a Capitalization Project of the MED Programme of European territorial cooperation 2007-2013.

Agenda

Thursday September 18th

9.00-9.30 Registration

9.30-10.00 Opening

Michel Vauzelle, President of the Provence Alpes Côte d'Azur Region (PACA) or his representative.

Nuno Casimiro Vaz Silva, Joint Technical Secretariat (JTS) of the MED Programme.

Eduard Plana Bach, Lead Partner MEDLAND2020. Forest Sciences Centre of Catalonia (CTFC).

10.00-11.00 Operational results of the MED capitalization process of MEDLAND2020

General overview of MEDLAND2020 project; the need of being integrative regarding the natural resources management and conservation in the Mediterranean.

A **Database** of results and best practices; access to all.

An **e-Book** summary with the best tools and practices for the smart management and conservation of natural resources in the Mediterranean.

Methodological recommendations for a good implementation and for increasing the transferability of the MED projects: What we have learnt?

11.00-11.15 Coffee break

11.15-12.30 Round table: What future for Mediterranean natural areas and forests in a context of climate changes and new requirements of the society?

Leading of the debate: **Philippe Langevin**, local development economist and President of the regional association for local development in the region PACA.

Chantal Aspe, lecturer in Sociology from Aix-Marseille University.

Michel Vennetier, researcher about adaptation of forests to climate change from National Research Institute of Science and Technology for Environment and Agriculture (IRSTEA).

Daniel Quilici, President of Regional forest owners' Centre (CRPF) of PACA and President of Association of Mediterranean Forest Owners (ARCMED).

Alain Karsenty, socio-economist from Agriculture Research for Development (CIRAD).

Jean Bonnier, agronomist passionate about Mediterranean forests.

David Solano, International Affairs Director of CTFC.

12.30-14.00 Lunch (the lunch will take place in the panoramic part of the "Villa Méditerranée")

14.00-16.30 "Initiatives' village" & "good ideas fountain"

4 "village squares"

Corresponding to the 4 main topics, a speech and discussion every half an hour.

1 - Integrated management of natural protected areas

Key words: grouping of forest owners, management of protected areas, soil consumption, perception of the forest.

2 - Environment and natural risks

Key words: daily evaluation of forest fire hazards, green barriers of cypress against forest fires, adaptation of Mediterranean forests to climate change.

3 - Local development

Key words: Mediterranean network of scents and flavours, sustainable tourism development, collaborative platform to support research and technology transfer.

4 - Green economy

Key words: environmental services (social uses, water, non-wood products), promotion of wood energy, innovations and new resources.

A "fountain" to collect good ideas

A place will be set so that people can write their ideas, topics or partnership they want for the next cooperation Med programme.

16.30-17.30 Conclusions & outlooks

Leading of the session: **Denis Boglio**, Director of CTFC.

Recommendations for elected representatives and policy makers: short presentation of the **MEDLAND2020 Policy brief** which will be presented in Brussels. MEDLAND2020 representative.

Outlooks: presentation of the main axes of future programs for the territorial European and Euro Mediterranean cooperation. **Nuno Casimiro Vaz Silva**, JTS of the MED Programme.

Friday September 19th

Field trip in Roussillon (Vaucluse)

8.00 Departure from St Charles railway Station.

9.30-11.00 Roussillon first stop: Forest management in a protected area, grouping of forest owners.

11.00-13.00 Roussillon second stop: Taking into consideration of landscape within a forest management plan, how to pay for provided services by forest for tourism.

13.00-14.30 Lunch.

16.00 Marseille Marignane Airport.

16.30 St Charles railway Station.

Transport by coach. Limited number of places. Priority for foreign partners.

To register

Registration is free within the limits of the number of places available.
