

Thematic Topics workshops

- complementary partner -

Name of the Project: Proforbiomed

Name of the Partner: CRPF PACA

Name of the speaker: Louis-Michel DUHEN and Nicolas JOLY

Challenges and opportunities on each cross-sectoral component

Cross-sectoral components: C1. Governance and participation involvement; C2. Operational and R+D priorities; C3. Target group focused communication needs; C4. Financial needs and opportunities

From your MED project expertise, describe shortly main conclusions for:

Topic 1: Integrated management of natural protected areas

Topic 2: Natural risks management, especially wildfires

(add more slides if necessary)

Forest management lower forest fire risk

Operational tools and best practices [Linked with the e.Book contents](#)

Cross-sectoral components: C1. Governance and participation involvement; C2. Operational and R+D priorities; C3. Target group focused communication needs; C4. Financial needs and opportunities

From your MED project outputs, mention shortly some operational tools or best practices/ experiences that could be linked with the corresponding topic (classify them by component if is possible):

Topic 1: Integrated management of natural protected areas

Topic 2: Natural risks management, especially wildfires

(add more slides if necessary)

Silvicultural operations in private forest in sensible zone (Rognac, France; Enguera, Spain, Catalunya)

The forest management plan developed by ARGEM takes into account the fire risk

Methodological recommendations [Linked with the e.Book contents](#)

Cross-sectoral components: C1. Governance and participation involvement; C2. Operational and R+D priorities; C3. Target group focused communication needs; C4. Financial needs and opportunities

From your MED project expertise, mention shortly some methodological recommendations for improving / enhancing a project proposition / development / transferring that could be linked with the corresponding topic (classify them by component if is possible):

Topic 1: Integrated management of natural protected areas

Topic 2: Natural risks management, especially wildfires
(add more slides if necessary)

Try to use forest management against fire to improve the quality of the wood produced (example in Rognac, France)

Combine the efforts of forest management and fire prevention to lower the costs of interventions.

Work on the accessibility of the forest to the fire brigade (road bottleneck, knowledge of the area...)
